

THE NATIONAL GI ASSOCIATION

Full name :

Hungarian Association for Geo-information (HUNAGI)

Type of association :

Non-profit, interdisciplinary umbrella association
Date of foundation : 9th November 1994

Date of Court registration:

8th January 1996, 14th August 2002: classified as Public Benefit Society

Members : 101 institutions and organisations, 8 countrywide projects, 22 students from 11 universities

MISSION GOALS

- to promote, stimulate, encourage and support the development and use of GI and its associated technologies
- to strengthen the institutional links between the multidisciplinary GI communities in Hungary and in abroad.

The objective of the Hungarian GI Association is to provide representation and visibility of the GI community's interests in the European Umbrella Organisation for Geographic Information (EUROGI), and to build up contacts with similar national GI associations. HUNAGI carries out actions related to the EUROGI membership and provides representation of its members' interest on international fora.
