Plenary Session in the Grand Ashok Convention Hall

PCGIAP's Workshop on Institutional Strengthen hosted by the Governmental Guest House in Mysore

Press release on the exhibition

The 7th Global Spatial Data Infrastructure (GSDI-7) expo was inaugurated by Mr. K M Shivakumar I A S, Principal secretary, Dept. of I T & Biotechnology and Science & Technology.

Mr. Ian Masser, President, GSDI Association, Mr. Amithaba Pandey, Jt. Secretary (Admin), DST, GOI, Dr. Jack Dangermond, President, ESRI, Ms Preetha Pulusani, President, Intergraph Mapping and Geospatial Solutions, Mr. Mukund Rao, National Organizing Secretary, GSDI - 7 were present on the occasion.

GSDI 7 is held in Bangalore, India, which is fast emerging as a significant player in the global spatial technology industry. Some of

the world's finest organizations in GIS, GPS, Remote Sensing like ESRI, Space Imaging, Intergraph, ITC The Netherlands are showcasing the latest developments in these technologies.

Leading spatial technology companies of India like ERDAS, Speck Systems, Secon Surveys ,HP and also government agencies like ISRO, DST, C-DAC, Karnataka State Remote Sensing Agency were also represented.

Spatial World Expo offers an excellent opportunity for Bangalore's industry to experience the power of SDI and innumerable opportunities and applications it offers in various fields including Town Planning Disaster Management, Resources Planning etc.

Department of science and technology has put up the Great Arc show at the Spatial World Expo. This is the 200 year story of measuring and mapping India inch by inch with great precision and accuracy. Using the triangulation method the survey discovered the tallest peak in the world and also the sources of Ganga and Brahmaputra. The Great Arc exhibition unveiled in London for the first time and now in Bangalore showcases the agony, the stupendous endeavour and the great sacrifices made innumerable in laying the foundation for all future surveys.

Spatial World Expo is organized jointly by ISRO and DST, GOI. This event managed by MM Activ is expected to generate huge excitement in the SDI industry and place Bangalore at the forefront of Global Spatial technology industry.

Jack Dangermond with the Editor of Chief of Térinformatika dr.Szilárd Szabó
